

Hands on with PIC24F[®] Microcontrollers

DATE: 6/10/2020

TIME: 9:00 am to 4:00 pm

LOCATION: Microchip Technology Regional Training Center, 112 Turnpike Road, Suite 200, Westborough Executive Park, Westborough, Massachusetts 01581

COURSE DESCRIPTION: Designing hardware and firmware with Microchip PIC[®] 24F processors by use of a simple example. Students will design their prototype, write the code, and debug their project on a PIC24F Curiosity Development Board DM240004 that they will leave with.

PREREQUISITES: Basic familiarity with PIC[®] Microprocessors, C, and MPLAB[®] X

OUTLINE:

- Introduction to the PIC24F processor
- Introduction to the PIC24F Curiosity Development Board DM240004
- Definition of the project problem
- Breaking down the problem and selection of processor
- Hardware design using a PIC24F processor
- Firmware design with XC16 C compiler
- Learning to program the part using the Curiosity Development Board DM240004
- Debugging your project using the MPLAB[®] X simulator and Curiosity

MATERIALS PROVIDED:

- PIC24F Curiosity Development Board DM240004
- PDF of presentation

REQUIRED:

- Your computer with MPLAB[®] X v 5.15 or later and XC16 v 1.50 or later installed.
- Payment by 5/26/2020

FEE: \$449.00 per person.

ACCEPTED PAYMENT: Check, PayPal, or Credit Card.

TO REGISTER: Email Mchipguru@gmail.com for payment information and available discounts.
